

# 2 AND 3 VISIT THE GORILLAS AND GIBBONS AT THE NATIONAL ZOO

Join The Numbers Lady, 2 and 3 as they watch gorillas and gibbons at the National zoo. As you watch, pay attention to how they walk, what they eat, how they communicate, where they're from and how they look. Which one is an ape? Which one is a monkey? Take notes and then figure out how they're different and how they're the same using the **venn diagram**.

## GLOSSARY

**Ape:** any primate with a human-like appearance, particularly those without a tail.

**Monkey:** any primate with a tail.

**Knuckle:** joints of fingers.

**Venn Diagram:** illustration that helps to visually represent the similarities and differences between two concepts.
